

# SOUTH INDIA'S PRINTING & CONVERTING EXPO

Concurrent with  
India's Premier Packaging Expo

**Special  
Focus on  
LABELS**

Brought to you by

Organiser of

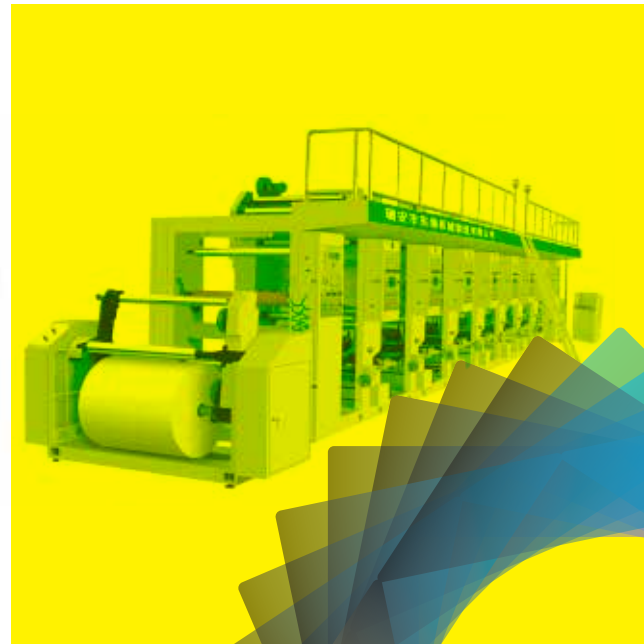

## Why comPrint

The Indian Printing Industry is showing phenomenal growth. The Print Industry is one of the fastest growing sectors with a projected growth rate of 12.5% annually. Focus on showcasing modern advanced equipment, printing and packaging solutions to the industry. It provides a platform to showcase new technology in software, digital printing equipment and materials.

## Who visits comPrint?

- Existing units in paper, plastics, metal and glass - printing and converting
- New entrepreneurs seeking to enter printing and converting - be it paper, plastics, metal or glass
- Newspapers, publishers - books and periodicals, wedding & greeting card manufacturers
- Labels and sleeves manufacturers
- End-users of various industrial, consumer and FMCG products for awareness, knowledge and sourcing of new materials for improved printing & packaging
- Institutions and Government departments handling textbooks and publications
- Dealers/channel partners in the supply chain
- Consultants and training institutions

The visitors will be largely owners | directors | commercial & technical managers  
skilled technicians | consultants | trainers...

and will be targeted from all over South India

## Visitor Promotion

A 360 degree visitor promotion effort will be put in place to attract visitors from all over South

- Advertisements in magazines – through barter system
- High visibility banner ads in leading trade portals
- Highlighted event details in various product portals
- Write-ups in various product magazines
- E-mail campaigns to a host of database – organizers and exhibitors
- E-mail and direct invites to visitors of past Compack shows
- Direct invites and e-mail reminders to the members of various product and end users associations
- Customized and high intensity e-mail campaigns to select potential product segments
- Banners and posters at strategic locations – industrial estates, factories etc.
- Press Ads – English and vernacular, just before and during the events
- Periodical SMS reminders

# Exhibitors Profile

## Pre-press

Softwares, CTP software, Colour Management Systems, Digital Workflow, Desktop Publishing Systems, Colour Scanners, Digital Proofing systems, Plate Making Systems including plate setters, Offset - PS & CTP plates, etc.

## Printing

Sheet Fed Offset machines – single & Multi colour, Web offset machines for newspapers, books and magazines, Flexographic & Rotogravure printing machines, Label printing machines, Digital printing machines, Screen Printing machines Flat bed & Rotary, Pad printing machines & Dry offset printing machines for packaging, Printing machines for metal & glass, etc.

## Binding

Paper cutting machines – semi/fully automatic, Perfect Binding machines, Thread Sewing machines, Wire Stitching machines, Soft/hard cover binding machines, Finishing, Lamination machines, Folding machines, Die-cutting and creasing machines, Slitting and rewinding machines, Sheeters, folding and gluing machines, stackers, conveyor systems, etc.

## Signage

Digital Signage systems, Glow signs, Spring banners, Display stands, Bill boards, Hangers, etc.

## Paper & Board

Slitting, corrugating, cutting, creasing, slotting, punching, gluing, laminating, stitching, UV curing, drying, machines, paper bag making - regular and specialized with handles, ropes, etc.

## Plastics

Coating & Laminating – dry and solvent based, Slitters/rewinders, Pouch making, Reel to sheet, bag making with special features, hot foil stamping, decorating, sleeves & labels making, cutting and sealing, Thermoforming, Vacuum forming, metallising, rotary die and punch making, tubes - lamitube making, ultrasonic welding, metal inserting, machines for non woven bag making, reel loading & unloading machines, trim recycling, waste grinders, etc.

## Metal & Glass

Equipment for manufacturing containers, cans, lacquer coating, drying, lid making, trimming, PP metal closures, coding machines glass containers for pharmaceuticals, food and beverage applications, etc.

## Auxiliary Equipment

Pre press, Offset Plate making, Photopolymer plate making, Films, anilox rollers, Rubber rollers, cylinders & shafts, cylinder engraving – chemical & electronic, tension controller, web guide, web inspection & monitoring equipment, thickness measuring and monitoring systems, colour measurement & monitoring, heating and chilling systems, Doctor blades & Chambers, Ink and solvents mixing, metering, delivery systems, Sterio mounting machines, Drives, energy saving devices, instrumentation and automation systems, vacuum pumps, pneumatics & hydraulics systems & spares, etc.

## Materials & Consumables

All materials - paper, board, films, substrates, additives, inks & solvents, label stocks, glues & adhesives, lacquers, composite, PS plates, Photopolymer plates, wads and protective materials, etc.

## Support services

Design software and hardware, workflow software, CTP software, colour management systems, digital proofing, desktop publishing systems, training, consulting, used machine sales, trade portals, institutions, quality audit and certification institutions.

...anything and everything  
connected to printing  
and converting

## Date & Venue

JUNE 14, 15 & 16, 2018  
CHENNAI TRADE CENTRE, CHENNAI

## For Space Booking
